

### **SMALL MULTIPURPOSE BOX WITH LID**

The HBT4 has an overall MATT finish and is moulded in ABS to give maximum strength. It can be easily punched or drilled for individual requirements and to produce a professional looking end product. The lid is retained by 4 countersunk self-tapping screws. Available in black or white as standard but other colours can be quoted for should you require to add that individual touch to your products.

Part No.	Overall Dimensions mm			Nominal Wall Thickness
	A	B	C
